PCO Behler: But now he's calling her, and he won't, she won't answer the phone because that's in violation too. Yeah, that's why I asked, what'd he do?

Anthony Ardo: Hello.

PCO Behler: Hello, is this Anthony Ardo?

Anthony Ardo: Who is this?

PCO Behler: This is Pennsylvania State Police.

Anthony Ardo: Ok, so uh, what's the problem?

PCO Behler: Well, here, here's, here's the problem. Your uh mother, Jean Monaghan.

Anthony Ardo: Yeah, she kicked me out of the house, so I don't care to even hear her name.

PCO Behler: Ok, that's fine. And uh, so, you haven't, where, can I ask where you are now sir?

Anthony Ardo: No.

PCO Behler: Ok.

Anthony Ardo: If it's any concern of yours, all I'm gonna do is do what I have to do, I'll either cut my throat or cut my wrist and I'll go over to the psych hospital. How does that sound to you?

PCO Behler: No, you shouldn't do that sir.

Anthony Ardo: Ok, well, you see, I'm, I'm not gonna listen to you. My own mother, that I worked for, for five years had the nerve to throw me out!

PCO Behler: Ok, well, I'm just calling to uh check your welfare.

Anthony Ardo: Yeah, my welfare's fine right now until I decide to cut my throat, then it won't be.

PCO Behler: Ok, so you're not gonna tell me where you are sir?

Anthony Ardo: Hell no! Nope, cause all you're gonna do is 302 me.

PCO Behler: No, I'm not gonna 302 ya. I just want to make sure you're safe.

Anthony Ardo: Uh, I, I'm fine.

PCO Behler: Ok, your mother threw you out this morning?

Anthony Ardo: My mother threw me out last night because

PCO Behler: Ok.

Anthony Ardo: She thinks I'm gonna work on a horse farm and break my ass for \$20 a day when that wasn't the agreement. And she paid so many people under the table with cash, and, and, and the IRS. If she wants to do that, I'll report her to the IRS. She wants to play games. She's planting marijuana all over the farm, and she wants to kick me out. We're gonna find out. If I'm not dead before this, If

PCO Behler: Well, uh, I wouldn't, I wouldn't

Anthony Ardo: before the freakin court date

PCO Behler: Sir, I wouldn't do that sir.

Anthony Ardo: I don't give a shit.

PCO Behler: I wouldn't do that to yourself.

Anthony Ardo: Yeah, well you know what, you try sleeping outside, no food, nothing and you tell me how you feel.

PCO Behler: Ok.

Anthony Ardo: Alright!

PCO Behler: I could give you uh, some places you can stay if you wish to do that.

Anthony Ardo: Yeah, no. I'll work it out myself.

PCO Behler: Ok

Anthony Ardo: Thanks for your concern.

PCO Behler: Ok.

Anthony Ardo: Tell my mother when she sees a bunch of smoke coming up off the mountain, she knows I'm fuckin dead.

PCO Behler: Alright.

Anthony Ardo: That'll be the fuckin sign that she knows I fucking shot antifreeze in my fucking veins and cut my fucking throat and wait to die. And she'll see the car on fire. So, you can go ahead and tell her that.

PCO Behler: Ok.

Anthony Ardo: I'll see you around. You'll know when I do it cause there'll be calls and guarantee by the time you get there I'll make sure I'm fucking dead. I'll tape a fuckin quarter stick around my neck and blow my fucking head off, before you even guys get to me. Alright.

PCO Behler: But you're not gonna tell me where you are sir?

Anthony Ardo: I'm not hurtin nobody else except myself. Alright?

PCO Behler: Ok.

Anthony Ardo: I got nowhere to go. My mothers got my food card. She uses it without my permission. I have no food. I've got no money. My car's on "e". I don't have shit! My best option is to end it. And that's what I'm gonna do.

PCO Behler: Ah, I wish you would reconsider that sir.

Anthony Ardo: Yeah, you don't know me and you know what, you're doing your job. You could give two shits about me.

PCO Behler: No, I don't have

Anthony Ardo: You don't know me and you don't give a shit about me so don't try to play me like you do!

PCO Behler: Well, I'm just trying to find out where you for your safety.

Anthony Ardo: Yeah, so you can pick me up and fucking 302 me! Good luck. Try to find me before I blow my fucking head off! Don't call me no more.

PCO Behler: Ok. Very good.

PCO Behler: Eddie, what's up?

Pagan: Hey, what's, what's the deal with this guy?

PCO Behler: Ahh, he said he's gonna commit suicide. He was at her house at five o'clock this morning. She got a PFA on him. Um, Jay's gonna head down with ya to talk to her. She called suicidal hotline. They said we could do a uh, an involuntary commitment, but we don't know where he is. He left at five o'clock this morning. He's in a Buick Reatta, blue in color. He, I uh talked to him. He doesn't want me to call him back. He says he's gonna slit his throat, cut his wrist. Um, doesn't want me to call him. He said when there's smoke coming up from the mountains, she'll, she'll know that he did something to him.

Pagan: Ok.

PCO Behler: Alright?

Pagan: Alright, excellent.

PCO Behler: that's all, that's the base of it, so I'm gonna call her back, tell her you're coming down to talk to her along with Jay. Uh, we can go from there, but I don't know about pinging his phone yet or anything, so. Cause he won't tell me where he is.

Pagan: Alright, he said it's a blue what?

PCO Behler: A blue Buick Reatta. I have no reg.

Pagan: Blue Buick Reatta. Ok, I'll, I'll google that. I don't know what the hell it looks like.

PCO Behler: Ok.

Pagan: Alright, thanks man, bye.

PCO Behler: Yep.

PCO Behler: State Police Belfast, PCO Behler.

County: Hey, it's Monroe County. How are you?

PCO Behler: Good.

County: Did you get that crash at mile marker 15 south bound.

PCO Behler: 15 south bound? No.

County: Yeah, it's one vehicle spun out. I believe unknown injuries. Or, excuse me, I believe negative injuries.

PCO Behler: Ok. Did you just, did you have a phone number of anybody called you, or was it a bypasser?

County: It was a passerby. I have,

PCO Behler: Someone called

County: I happen to have her name and number. Yep, I have her name and number if you'd like it, but it was just one call.

PCO Behler: Yeah

County: It's uh, Sarah Evans.

PCO Behler: uh, huh.

PCO Behler: T-Mobile and Sprint, are they one and the same? Do you know?

County: T-Mobile and Sprint?

PCO Behler: Yeah.

County: Uhhh, I'm not sure, they're usually separate. Um, let me double check.

PCO Behler: Ok. The reason I'm asking, if we, if we have to ping...hold on a sec

County: I didn't hear about any merger, but they were separate.

PCO Behler: 11, go ahead.

11: I'll be heading up to 33 with that vehicle crash. Is that blocking?

PCO Behler: He can't find anything yet.

County: Yeah, yeah, they're not, they haven't merged yet.

PCO Behler: They haven't merged yet?

County: yeah, they're waiting for FCC approvals at this time, they're still separate.

PCO Behler: Ok, do you have any kind of point, I have a, I have a T-Mobile here for a ping phone. Do you guys have anything on hand for Sprint for pinging a phone.

County: Uh, we usually call them and then there's a, information that they fax to you asking for permission and then you send it to them.

PCO Behler: Ok.

County: Do you need

PCO Behler: Yeah, could have that call number for Sprint.

County: Let me, yeah, that would be the supervisor, hang on, let me ask.

PCO Behler: Ok.

Cpl. Sysko: Hello.

PCO Behler: Hey Mark.

Cpl. Sysko: Yeah, what's up?

PCO Behler: It's Lenny, I just want to advise you of a situation we got going on in Lower Mount Bethel. Um, it's on Good Rd. The mother called, um her 47-year old son, I spoke with him. He said he's going to uh, commit suicide, but he didn't tell me slit wrist, or slit his throat. Um, we're trying to get him coaxed back to the house so we can commit him.

Cpl. Sysko: Ok.

PCO Behler: Um, Jay and Eddie are both over there so, I, I'm trying to find out how to ping his phone through uh, through Uh, Sprint, but I have no information on Sprint and nobody is open until 10 o'clock.

Cpl. Sysko: I don't know how to do Sprint either.

PCO Behler: Yeah. I just wanted to advise you.

Cpl. Sysko: *inaudible*

PCO Behler: what's that?

Cpl. Sysko: Call Smitty, see if he knows. Cause he's on call. He should be able to answer a quick question.

PCO Behler: Yeah, ok. So, I just wanted to advise

Cpl. Sysko: *inaudible*

PCO Behler: you what's going on. We're trying to get him, hm, the mother's on contact with him now. He didn't

Cpl. Sysko: He's 47?

PCO Behler: Yeah, he's 47-years old. He has drug issues. So, he texted his father, their divorced. Mother and father divorced. Said he's gonna commit suicide. Now she called us. Then I talked to him and he told me that she's not gonna have to worry any more. He wouldn't tell me where he was, but that he's gonna slit his throat, and all this and all that. Now mommy's in contact with him. Their trying to get him to come back to the house in Lower Mount Bethel so they can commit him.

Cpl. Sysko: Alright, so they're gonna try to get a 302 warrant and then we can
PCO Behler: Well, provide, he's, yeah, providing that he's, that he comes back.
Cpl. Sysko: Yeah.
PCO Behler: So, but mommy got a PFA on him yesterday cause he threatened to
 harm her.
Cpl. Sysko: Oh man. Alright.
PCO Behler: So, I just wanted to make you aware of it.
Cpl. Sysko: Alright, let me know if there's anything else.

**DEFENDANT PAGAN’S RESPONSES AND OBJECTIONS TO
PLAINTIFF’S FIRST SET OF INTERROGATORIES**

Defendant Pennsylvania State Police (“PSP”), by undersigned counsel, responds to Plaintiff’s First Set of Interrogatories Directed to Pennsylvania State Police as follows:

INTERROGATORY NO. 1:

1. Describe the process for the creation, development, adoption, and approval of the Current Use of Force Policy and the process to make revisions and/or changes thereto.

RESPONSE TO INTERROGATORY NO. 1:

The Pennsylvania State Police (PSP) has regulations that govern the use-of-force policies and procedures for the department. Various affected Bureaus within the PSP are assigned process ownership of the regulation and are responsible for ensuring the content is accurate/complete and meets applicable legal standards. When a revision needs to be made to the regulation, the process owner submits proposed revisions, through channels, to the Bureau of Research and Development for review, vetting, approval, and publication. The Bureau of Training and Education, Bureau of Research and Development, and PSP Office of Chief Counsel all play a primary role in the creation, development, adoption, revision, and approval of the PSP use-of-force policy (with the Bureau of Training and Education and the Office of Chief Counsel serving as co-process owners for the regulation). General protocols for the creation, development,

adoption, revision, and approval of Department regulations are governed by PSP Administrative Regulation (AR) 1-2, Directives, Regulations, and Correspondence. A copy of AR 1-2 is produced herewith, bearing Bates-stamp Nos. DEF002210 – DEF002231.

INTERROGATORY NO. 2:

2. Identify all individuals who assisted in the creation, development, adoption, and/or approval of the Current Use of Force Policy and describe each individual's involvement therein.

RESPONSE TO INTERROGATORY NO. 2:

PSP objects to this Interrogatory on the grounds that, due to the broad wording of this Interrogatory, it is impractical to ascertain the name of every person who would be responsive to this request. Subject to and without waiving the foregoing objections, PSP responds as follows:

The Bureau of Training and Education, Bureau of Research and Development, and PSP Office of Chief Counsel all play a role in the creation, development, adoption, revision, and approval of the PSP use-of-force policy. With the input and assistance of subject-matter experts and Commanders/Directors from these entities, final execution and promulgation of the policy is ultimately made by the Commissioner of the PSP. Listed below are the names and titles of individuals who were likely involved in drafting/reviewing/approving revisions to the PSP use-of-force policy over the last five years:

Executive and Administrative Offices: Colonel Robert Evanchick, Colonel (Ret.) Tyree C. Blocker, Ms. Marlana L. Sattazahn, Lieutenant Gerald E. Williams, Sergeant Leslie E. Barr, Lieutenant Colonel (Ret.) James E. Degnan, Ms. Staci E. Fleming, Lieutenant Christopher M. King, Lieutenant Colonel Scott C. Price, Ms. Bianca C. Cole, Lieutenant Christopher Jones, Lieutenant Colonel (Ret.) Edward C. Hoke, Ms. Kathleen M. Clouser, Lieutenant Patrick A. Beaver, Lieutenant Colonel (Ret.) Lisa S. Christie, Captain (Ret.) Anthony J. Sivo, Lieutenant

Colonel (Ret.) Stephen A. Bucar, Lieutenant Colonel (Ret.) William A. Horgas, Captain Matthew D. Nickey, and Captain William A. Brown.

Bureau of Research and Development: Major Patrick D. Brinkley, Ms. Billie J. Kauffman, Mr. Daniel P. McDermott, Ms. Jessica L. Wenner (Retired), Ms. Regina O'Hara, Sergeant Tyler P. Burgess, Corporal William E. Winner, Lieutenant (Ret.) Robert F. Kelly, Sergeant Seth J. Kelly, Lieutenant William J. McAreavy Jr, Lieutenant Laura M. Klinger, Corporal Zena C. Knock, and Trooper David J. Duddy.

Bureau of Training and Education: Major Thomas E. Dubovi, Major (Ret.) William P. White, Captain Joanne R. Reed, Captain Wayne C. Kline (Commanding Officer, Troop C), Lieutenant Scott W. Ohl, Sergeant Timothy J. Fetzer, Corporal (Ret.) Deron A. Julian, and Corporal Kevin E. Selverian.

Office of Chief Counsel: Daniel C. Beck, Esq. (present Chief Counsel); Nolan Meeks, Esq. (former Acting Chief Counsel); Joanna N. Reynolds, Esq. (former Chief Counsel – Ret.); and/or their designee(s).

INTERROGATORY NO. 3:

3. Identify all individuals who are and/or have been, within the past ten years, responsible for ensuring the then-existent Pennsylvania State Police Use of Force Policy meets all Constitutional and/or legal standards, including any applicable requirements under the Americans with Disabilities Act. For each individual identified here, state the individual's name, title, and dates of such responsibility.

RESPONSE TO INTERROGATORY NO. 3:

PSP objects to this Interrogatory on the grounds that, due to the broad wording of this Interrogatory, it is impractical to ascertain the name of every person who would be responsive to this request. Subject to and without waiving the foregoing objections, PSP responds as follows:

The Office of Chief Counsel plays a primary role in ensuring the PSP use-of-force policy meets all constitutional and/or legal standards, including any applicable requirements under the Americans with Disabilities Act. With the advice of the Office of Chief Counsel, final execution and promulgation of the policy is ultimately made by the Commissioner of the PSP. Listed below are the names and titles of individuals from the Office of Chief Counsel who have been involved in reviewing/endorsing (or assigning designees to review/endorse) any proposed changes to the PSP use-of-force policy over the last five years:

- Current Chief Counsel: Daniel C. Beck, Esq. (January 2020 to Present)
- Former Acting Chief Counsel: Nolan Meeks, Esq. (July 2019 to January 2020)
- Former Chief Counsel: Joanna N. Reynolds, Esq. (Unknown to July 2019)

INTERROGATORY NO. 4:

4. State whether there has been any formal review of and/or internal proposed changes to the Current Use of Force Policy since its adoption.

RESPONSE TO INTERROGATORY NO. 4:

There have been several formal reviews and internal proposed changes to the current use-of-force policy since its adoption.

INTERROGATORY NO. 5:

5. State whether Pennsylvania State Police has received any proposals and/or requests to change the Current Use of Force Policy from any external source since the adoption of the Current Use of Force Policy.

RESPONSE TO INTERROGATORY NO. 5:

PSP objects to this Interrogatory on the grounds that, the phrase “external source” is vague and ambiguous. Subject to and without waiving the foregoing objection, PSP is not aware of any such proposals and/or requests.

INTERROGATORY NO. 6:

6. For the ten-year period preceding May 20, 2017, identify each and every occasion in which a Pennsylvania State Police trooper(s) (and/or higher ranked law enforcement official within the Pennsylvania State Police), while acting within the scope of his or her official duties, interacted with an individual / suspect under the following circumstances:

- a. The trooper(s) (and/or higher ranked law enforcement official within the Pennsylvania State Police) believed that the individual / suspect was in the possession of a bomb or other explosive device; **and,**
- b. The trooper(s) (and/or higher ranked law enforcement official within the Pennsylvania State Police) believed that the individual / suspect had an intent to carry out a suicidal and/or homicidal bombing.

For each incident identified here, provide the following documents: (i) the applicable incident and/or homicide report and related documents; and, (ii) the applicable, if any, Internal Affairs Division report. Kindly identify by Bates number the responsive documents provided for each incident identified here.

RESPONSE TO INTERROGATORY NO. 6:

Defendants object to this Request on the grounds that it is overly broad, unduly burdensome to comply with, and not proportional to the needs of this case. PSP does not maintain any data specific to incidents involving individual/suspects believed to possess a bomb or other explosive device. PSP does not maintain data in a manner that would allow the information sought to be gathered without reviewing every individual incident reports, which would be entirely impractical, and require a great burden and expense. The burden and expense on Commonwealth Defendants of responding outweighs any benefit such information could confer on Plaintiffs in their prosecution of this lawsuit.

INTERROGATORY NO. 7:

7. For the ten-year period preceding May 20, 2017, identify each and every occasion in which a Pennsylvania State Police trooper(s) (and/or higher ranked law enforcement official within the Pennsylvania State Police), while acting within the scope of his or her official duties, interacted with an individual / suspect under the following circumstances:

- a. The trooper(s) (and/or higher ranked law enforcement official within the Pennsylvania State Police) had knowledge that the individual / suspect had made threats of self-harm, including, but not limited to, threats of suicide; **and**,
- b. The interaction resulted in the death of the individual / suspect (either by suicide and/or as a result of the use of lethal force).

For each incident identified here, provide the following documents: (i) the applicable incident and/or homicide report and related documents; and, (ii) the applicable, if any, Internal Affairs Division report. Kindly identify by Bates number the responsive documents provided for each incident identified here.

RESPONSE TO INTERROGATORY NO. 7:

Defendants object to this Request on the grounds that it is overly broad, unduly burdensome to comply with, and not proportional to the needs of this case. PSP does not maintain any data specific to incidents involving individual/suspects who have threatened self harm. PSP does not maintain data in a manner that would allow the information sought to be gathered without reviewing every individual incident reports, which would be entirely impractical, and require a great burden and expense. The burden and expense on Commonwealth Defendants of responding outweighs any benefit such information could confer on Plaintiffs in their prosecution of this lawsuit. PSP further objects to this Request on the grounds that it seeks individual incident information. This information would reveal personal and private information of individuals not related to this lawsuit and would invade the privacy of those individuals.

Subject to and without waiving the foregoing objections, PSP will provide data relating to mental health related incidents and officer-involved shootings for 2017-2019. This data is provided in the Mental Health and OIS Data chart, produced herewith, bearing Bates-stamp No. DEF002232.

INTERROGATORY NO. 8:

8. For the ten-year period preceding May 20, 2017, identify each and every occasion in which a Pennsylvania State Police trooper(s) (and/or higher ranked law enforcement official within the Pennsylvania State Police), while acting within the scope of his or her official duties, interacted with an individual / suspect under the following circumstances:

- a. The trooper(s) (and/or higher ranked law enforcement official within the Pennsylvania State Police) had knowledge that the individual / suspect had a history of mental illness; **and**,
- b. The interaction resulted in the death of the individual / suspect (either by suicide and/or as a result of the use of lethal force).

For each incident identified here, provide the following documents: (i) the applicable incident and/or homicide report and related documents; and, (ii) the applicable, if any, Internal Affairs Division report. Kindly identify by Bates number the responsive documents provided for each incident identified here.

RESPONSE TO INTERROGATORY NO. 8:

See response to Interrogatory No. 7, above.

INTERROGATORY NO. 9:

9. For the ten-year period preceding May 20, 2017, identify each federal and/or state action filed against the Pennsylvania State Police alleging violations of the Americans with Disabilities Act that arose from the use of lethal force by an employee and/or agent of the Pennsylvania State Police.

RESPONSE TO INTERROGATORY NO. 9:

PSP has not identified any responsive actions.

INTERROGATORY NO. 10:

10. State whether the Pennsylvania State Police provides training to its troopers with respect to the Current Use of Force Policy. If so, provide a detailed description of the nature of such training, including how often training is provided, when in an officer's career it is provided, and a description of any documents, forms, directives, videotape presentations, and/or memoranda which relate to and/or are employed in connection with such training.

RESPONSE TO INTERROGATORY NO. 10:

The Department provides yearly updated use of force training through the Mandatory In-Service Training ("MIST") platform. In 2017, the MIST platform consisted of an online review of Use of Force Legal and Policy Standards and also practical Use of Force Response Scenario Training.

In 2018, MIST included a classroom portion on Practical De-escalation which involved some mental health issues being addressed. The 2018 program also included a portion on ground fighting and a portion on weapons transitions.

The 2018 online program also included segments on Shooting at or From Moving Motor Vehicles as well as a portion on Prisoner Security and considerations involved with Less-Lethal Force Options.

INTERROGATORY NO. 11:

11. State whether the Pennsylvania State Police provides training to its troopers with respect to the Americans with Disabilities Act. If so, provide a detailed description of the nature of such training, including how often training is provided, when in an officer's career it is provided, and a description of any documents, forms, directives, videotape presentations, and/or memoranda which relate to and/or are employed in connection with such training.

RESPONSE TO INTERROGATORY NO. 11:

All PSP troopers, as with all Commonwealth employees, receive training on the Americans with Disabilities Act. This training is provided by a separate Commonwealth agency, the Office of Administration, which maintains all information on this training material.

DECLARATION

1. I, Corporal Kevin Selverian, presently serve as a Use of Force Specialist within the Use of Force Unit of the Bureau of Training & Education, with the Pennsylvania State Police (“PSP”). A detailed description of my experience and education is set forth in my resume, a copy of which is attached hereto as Exhibit 1.

2. The Use of Force Unit serves several functions, including but not limited to:

- a. The development and coordination of use of force instruction provided to PSP cadets and active members of the department.
- b. The presentation of PSP use of force training programs to law enforcement and civilian audiences.
- c. The revision of existing PSP use of force trainings, when appropriate.
- d. The continued review of the PSP Use of Force Policy.
- e. The provision of suggested alterations to the PSP Use of Force Policy, when appropriate.
- f. The analysis and provision of expert testimony in relation to police use of force incidents.
- g. The provision of consultation services to the PSP and outside governmental agencies concerning police use of force matters.

3. The PSP Use of Force Policy contains mandates and considerations regarding the appropriate application of force by Department members while in the performance of their prescribed duties. The policy is founded upon current constitutional and statutory requirements, with an emphasis upon precedent case law.

4. The PSP Use of Force Policy states, in part, “Members and enforcement officers are authorized to use reasonable force, when necessary, in the performance of their duties, after consideration of the totality of the circumstances, to successfully attain lawful objectives.” The referenced standard is applicable to all manners of force employed by members of the Department, no matter the classification of person upon whom the force is used.

5. While the PSP Use of Force Policy promotes a single standard of “objective reasonableness” in relation to the proper application of force, members of the Bureau of Training and Education provide particularized instruction to both cadets and active members regarding contacts with specific categories of persons within the communities that they serve. This includes the presentation of training programs relative to emotional control strategies and interactions with those experiencing mental health concerns.

6. A portion of the training provided to cadets regarding emotional control, decision-making, and interactions with those experiencing mental health concerns includes, but is not limited to:

- a. Law Enforcement Active Diffusion Strategies (L.E.A.D.S)
 - i. Eight (8) hours of classroom and scenario-based instruction
 - ii. Taught by PSP Instructors
- b. Identifying Signs and Symptoms of Mental Illness
 - i. Four (4) hours of classroom instruction
 - ii. Taught by personnel from the Pennsylvania Psychiatric Institute (Penn State University)
- c. Autism Awareness:
 - i. Two (2) hours of classroom instruction
 - ii. Taught by personnel from the Autism Services, Education, Resources, and Training Collaborative
- d. PA Mental Health Laws
 - i. Two (2) hours of classroom instruction
 - ii. Taught by PSP Academy Criminal Law Unit Instructors
- e. Practical Application / Scenario-Based Training
 - i. Every Cadet receives no less than sixteen (16) hours of scenario-based training which in part involves the utilization of de-escalation strategies and/or a role player suffering from a mental health emergency.

7. A portion of the training provided to active members of the Department during Mandatory In-Service Training (“MIST”) regarding emotional control, decision-making, and interactions with those experiencing mental health concerns includes, but is not limited to:

- a. MIST 2010: Patrol Response to Suicide Bombers
 - i. Two (2) hours of classroom instruction
- b. MIST 2012: Disability, Aggression, and the Assault Cycle
 - i. One (1) hour of classroom instruction
- c. MIST 2013: Missing Endangered Persons Advisory System
 - i. One (1) hour of classroom instruction
- d. MIST 2015: Response Enhancing Arousal Control Techniques
 - i. One (1) hour of classroom instruction
 - ii. Authored by PSP Psychologist
- e. MIST 2016: Tactical Communication and Conflict Management
 - i. One (1) hour of classroom instruction
- f. MIST 2016: Understanding and Effectively Engaging Individuals with Traumatic Brain Injuries
 - i. Two (2) hours of classroom instruction
 - ii. Authored by PSP Psychologist
- g. MIST 2017: Tactical Communication Review
 - i. One (1) hour of classroom instruction
- h. MIST 2017: Ti® Use of Force Simulation Training and Use of Force Reaction Training
 - i. Three (3) hours of scenario-based training that involves the use of de-escalation strategies and / or a role player suffering from a mental health emergency.
- i. MIST 2018: Practical De-escalation Strategies
 - i. One (1) hour of classroom instruction

j. MIST 2018: Use of Force Stress Response Training

- i. Two (2) hours of scenario-based training that involves the use of de-escalation strategies and / or a role player suffering from a mental health emergency.

k. MIST 2019: Use of Force Response Training

- i. Two (2) hours of scenario-based training that involves the use of de-escalation strategies and / or a role player suffering from a mental health emergency.

l. MIST 2020

- i. In-person instruction cancelled due to COVID pandemic

8. The Pennsylvania State Police Bureau of Integrity and Professional Standards continues to collect data on Department Member's applications of force via the Blue-Team system. As per Department Policy, the Department's Risk Management Officer, on a bimonthly basis, conducts a query of Early Intervention Program data entries, to identify patterns or trends relating to use of force incidents which are outside of Department norms.

9. The Bureau of Integrity and Professional Standards also frequently corresponds with the Department's Use of Force Unit within the Bureau of Training and Education to further identify use of force trends and provide any necessary corrective action through both the operational and basic training programs. The Use of Force Unit within the Bureau of Training and Education frequently relies upon numerous resources, to include the United States Department of Justice, the International Association of Chiefs of Police, and police practice and policy experts, to ensure its use of force training protocols are founded upon legal and evidence-based principles.

10. Based on an analysis of Department use of force incidents, use of force training curriculums were revised in the last few years to include additional hours of training in communications and de-escalation strategies, deployment of conducted energy weapons, response to mental health emergencies, and critical thinking and use of force decision making.

I state under penalty of perjury that the foregoing is true and correct.

CIVIL ACTION

NO. 18-5217

DECLARATION

1. I, Major Patrick Brinkley, presently serve in the role of Director in the Bureau of Research & Development with the Pennsylvania State Police (“PSP”).
2. The Bureau of Research & Development develops programs and initiatives to facilitate effective Department operations and improve procedures. The Bureau provides PSP executives and commanders with concise, comprehensive information and research to identify best practices and areas of need with respect to policies, procedures, and equipment, and to facilitate the effective deployment and utilization of Department resources. The Bureau also serves as the project management lead for all significant policy, planning, and logistics initiatives within the Department, and provides guidance and support to affected organizational segments to ensure proper synchronization of activities and effective management of resources.
3. As a part of discovery for the above-captioned litigation, the Bureau was asked to provide a report of the number of PSP incidents relating to the Mental Health Act, for the years of 2014-2019.
4. In response to this request, the Bureau pulled data of incidents classified as “Mental Health Act”.
5. Beginning in 2016, PSP began using a Computer Aided Dispatch (“CAD”) system. Thus for the years of 2016-2019, the Bureau ran a search for each year to return results of incidents wherein the “CAD Call Type” field had been coded as “Mental Health Act”.
6. For the years of 2014-2015, before PSP’s institution of the CAD system, the Bureau ran a search for each year on the old system wherein the “Class” field had been coded as “Mental Health Act”.
7. In both the pre-2016 system and the CAD system, the “Class” and “CAD Call Type” fields, respectively, are coded by the Police Communications Officer (“PCO”) or other responding member who receives the dispatch call, based on the nature of the incident.

8. As a general matter, the “Mental Health Act” code is used for incidents involving involuntary mental health commitments under Section 302 of the Mental Health Act, and other incidents involving a mental health issue that do not necessarily involve a crime. These incidents may include, for example, incidents requiring a police presence or intervention and/or a subsequent non-mandatory referral to a mental health service provider for resolution.

9. The Bureau’s queries resulted in the following incidents coded as “Mental Health Act” for the years 2014-2019:

- a. Year 2014: 3909 incidents
- b. Year 2015: 3728 incidents
- c. Year 2016: 3862 incidents
- d. Year 2017: 2312 incidents
- e. Year 2018: 2813 incidents
- f. Year 2019: 3862 incidents

I state under penalty of perjury that the foregoing is true and correct.

SP 7-0072 (1-95)		HOMICIDE INVESTIGATION ACTION REPORT		INCIDENT NO. PA2017-516047	
ACTION ASSIGNED OR PURPOSE OF REPORT Homicide Investigation: Anthony Paul ARDO					
Hazardous Device & Explosives Section					
ASSIGNED TO Corporal Michael D. SPONCHIADO		ASSIGNED BY Lt. Joseph SOKOLOFSKI			
DETAILS					
SYNOPSIS: HDES was contacted regarding a Troop M member involved shooting incident at PSP Belfast area. The actor threatened the use of explosives and during the incident deadly force was used. The actor attempted to light what was later discovered to be a 1.5" aerial mortar inside the vehicle during the incident.					
HDES ACTIONS: Upon arrival at approx. 1254 hours I met w/ the OD Sgt Pat O'MALLY and other PSP investigators. It was explained to me the actor threatened the use of explosives if he was being lied to by his mother who was attempting to get him back to the residence via phone to be taken into custody. As stated, the actor attempted to light what was later discovered to be an aerial mortar, which was located on the ground at the scene at the rear of the vehicle. I was asked to conduct a safety search of the vehicle for any explosives or items containing energetic material which may pose a hazard to other personnel. At approx. 1315 hours I entered the actors vehicle, a blue Buick coupe, for the purpose of clearing it of any potential hazards for first responders, fire, tow and coroner's office personnel. I checked the front driver seat area and behind as well. Behind the seat was a large amount of clothing and it was removed piece by piece to clear the pockets. I then moved to the passenger side of the vehicle and cleared the front and rear internally. A firework labeled 'Crazy Robots', Item 14, M06-6214C was found within the vehicle on the passenger side. I moved on to the trunk area but the keys provided would not turn the trunk lock and I could not get in without forcible entry. The wheel wells and engine bay were checked and cleared last. The clothing items were later placed back into the vehicle for a search warrant service on it at a later date and time. Located behind the vehicle in the roadway was one loose firework labeled 'Sammy's Best'. It was taken into evidence and labeled at item 13, M06-6214C. Also to the rear of the actor's vehicle in the grass was the suspected mortar used during the incident and listed as evidence under item 12, M06-6214C. The mortar was approx. 1.5" wide and had blood on the paper wrapping. At approx. 1352 hours I was asked to clear the bank of mailboxes at the scene since the actor may have had access to them at some point in the incident. They were located on the opposite side of the roadway from the actor's vehicle. They were cleared without incident. Verbal consent was given to PSP by the actor's mother/homeowner. I entered a detached garage/barn area for a cursory safety check for anything of energetic materials with negative results. PSP personnel then entered the residence at approx. 1505 hours and entered and cleared the residence of any energetic materials. In an upstairs bedroom multiple packages of fireworks were discovered and taken into PSP custody as evidence, items 1-9, M06-6214D. All items were boxed and sealed by me and Tpr. Kathleen LABUKAS 10438 of FSU. Items 12-14 on M06-6214C individually packaged in their own evidence envelopes on scene and everything listed was turned over to me for HDES storage in Hershey, PA. On 05/22/17 I was notified that there was another firework found in the pocket of the actor during the autopsy. The item was a 'Crazy Robots' firework and appeared the same as what was removed from the residence and what was found in the actor's vehicle. It was sealed in an evidence envelope and turned over to me for HDES storage that date at 1313 hours. It is listed under item 11, M06-6214K. On 05/23/17 I was again notified by Cpl TALJIAN that more fireworks were found in the trunk of the vehicle. They were inventoried and sealed prior to my arrival at Belfast under M06-6214L, items 1-16. I took possession of them on 05/23/17 at 1430 hours. All fireworks taken into evidence listed appear to be 1.4 consumer grade. They will be stored in the HDES BESO CONEX container until further notice from the Troop and DA's office regarding the property retention/disposal. The property records are scanned and attached as well as being manually filed in office. On 08/17/17 I responded to the Northampton County Courthouse per the request of DA John MORGANELLI per grand jury testimony for this incident. I was sworn in as an expert and answered questions regarding the property taken and how it functions. I was also asked to bring Item 12 from M06-6214C for the grand jury. The seal on the packaging was broken during testimony at approx 1000 hours. After the hearing I went to PSP Belfast and met with Cpl. Blair TALJIAN who co-signed with me and resealed the packaging with new evidence tape. Item 12 was admitted back into the BESO evidence CONEX on 08/18/17 at 0929 hours. HDES Incident number is generated for this incident, BHHD00001498. See attached report. This will be continued.

5. NARRATIVE I was requested to assist with the service of a Search Warrant of a vehicle involved in this incident. The vehicle was being stored in the garage at PSP Belfast. On 05/23/17 at approx. 1159 hours Tpr. LABUKAS, Troop M FSU member, and I arrived at PSP belfast to serve the Search Warrant with Tpr. Michael EVERK, Lead Investigator. Also assisting was Tpr. matthew VILLANO, PSP Belfast CIU member. At approx. 1205 hours we began the search. I began by taking overall photographs of the exterior of the vehicle followed by close up photographs of the damage to the vehicle. I then photographed the interior of the vehicle. As I began to search the interior of the vehicle Tpr. VILLANO made forced entry into the truck of the vehicle as the key did not work on the lock. As I searched the interior of the vehicle and found items of interest they were handed to Tpr. LABUKAS who then photographed the items and packaged them. Once the trunk had been opened I took overall photographs of it as it was found. The truck contained a large number of fireworks mixed among several other items. All of the items that were not fireworks were then removed and searched for additional evidence with negative results. I then photographed the remaining fireworks in place which were then removed and placed onto a blanket where an overall photograph was taken of all of them followed by a close ups of them. All of the recovered fireworks were then given to Tpr. EVERK who immediately entered them into the Property System, reference Property Record M06-6214(I) so that they could be given to Tpr. Michael SPONCHIADO, Hazardous Devices and Explosive Section, for proper storage. Once the search of the interior of the vehicle for items of interest was complete I proceeded to photograph two holes on the driver's door. Scales were placed next to each of the holes and an overall photograph was taken followed by a close up of each hole. I then placed trajectory rods into the holes. A photograph was taken from the back of the car to the front showing the angle in which they entered the vehicle. A tape measure was placed next to the entrance point of the holes and then a photograph was taken. The tape measure was then moved towards the end of the rod where additional photographs were taken. A photograph was then taken through the closed driver's door window showing the path one of the rods took inside the vehicle. I then opened the door and took a photograph where the rod entered into the vehicle. After searching the interior of the vehicle and photographing the trajectory rods I then began to search for metal projectiles shot into the vehicle. I began searching the interior of the driver's door. I removed the interior door panel and observed a projectile inside door towards the front. Several photographs were taken to capture where the projectile had been located. I then removed a speaker in the door and found the projectile directly behind it. The projectile was removed and photographed by Tpr. LABUKAS. I then began to search the dash and observed a projectile stuck in top of the dash just above the control center. It was photographed in place and then removed. Tpr. LABUKAS then took additional close up photographs of the projectile. As I was removing the above round I observed another round just below the defrost button on the instrument panel. It was photographed in place and then collected. Tpr. LABUKAS then took additional close up photographs of the projectile. In the the lower left hand corner of the control panel was a lage hole. I removed the control panel from the dash and located another metal projectile directly behind the screw hole of the panel. The projectile was photographed in place and then removed. Tpr. LABUKAS then took additional close up photographs of the projectile. CONTINUED>>>>>>>>>>>>>>>>
